

Security Bulletin for Xona Clientless Secure Gateway (CSG)

Bulletin ID	Date Published	Severity
XONA19-12	April 30, 2019	Low

Summary

No (TPM) secure storage exists to protect the public server credentials in configuration files on the file system. With the existence of any vulnerability which discloses the file system, such as Terminal Shell Access via SIGINT during Terminal Menu Startup, it is possible to gather information of such as the credentials to the internet accessible xona repo server at update.xonasystems.com. This server hosts update files for the device update process.

Affected Products

Product	Version	Hardware
Xona Clientless Secure Gateway	3.2 and earlier	ML-350

Solution

A security update for this issue is available in the 3.2.3 release update file. To receive this update, login to your support portal account on the xonasystems.com website or contact us for assistance by email: support@xonasystems.com.
