

Security Bulletin for Xona Clientless Secure Gateway (CSG)

Bulletin ID	Date Published	Severity
XONA19-13	April 30, 2019	Low

Summary

Requests for port 8080 and 8443 map through the host firewall to internal services that are inaccessible due to binding to the localhost interface (127.0.0.1). The device responded to ingress session requests on these ports in a manner which discloses that services are bound to these ports but are inaccessible.

Affected Products

Product	Version	Hardware
Xona Clientless Secure Gateway	3.2 and earlier	ML-350

Solution

A security update for this issue is available in the 3.2.3 release update file. To receive this update, login to your support portal account on the *xonasystems.com* website or contact us for assistance by email: support@xonasystems.com.
