

Security Bulletin for Xona Clientless Secure Gateway (CSG)

Bulletin ID	Date Published	Severity
XONA19-16	April 30, 2019	Quality

Summary

Both the CSG Setup Terminal or the Xona XIP Web Interface offer the option to disable SSH, but this controlled access to both the trusted and untrusted interfaces simultaneously. There did not appear to be any method to disable the SSH service on the untrusted interface without also disabling it on the Trusted interface. This service is enabled by default.

Affected Products

Product	Version	Hardware
Xona Clientless Secure Gateway	3.2 and earlier	ML-350

Solution

A security update for this issue is available in the 3.2.3 release update file. To receive this update, login to your support portal account on the *xonasystems.com* website or contact us for assistance by email: support@xonasystems.com.
