

Security Bulletin for XONA Critical Systems Gateway (CSG)

Bulletin ID	Date Published	Severity
XONA21-06	April 2, 2021	Medium

Summary

During a recent 3rd party security assessment of the CSG it was discovered that the CSG used a vulnerable version of PHP and would expose the PHP version in response headers.

Affected Products

Product	Version	Hardware
XONA Critical Systems Gateway (CSG)	3.2 and earlier	ML-350

Solution

The PHP version was upgraded to the latest version. Additionally the CSG now doesn't expose the PHP headers. A security update for this issue is available in the 3.3.2 release update file, released in Apr 2021. To receive this update, login to your support portal account on the XONAsystems.com website or contact us for assistance by email: support@xonasystems.com.
