

DevOps Engineer

XONA

At XONA, we enable organizations to remotely and securely access operational technology—anytime, anywhere, on any device. We're a trusted partner of industry giants and community cooperatives alike, delivering unmatched security without slowing the speed of work. The XONA platform delivers the operational ability a modern workforce needs; plus, the mobility and work-from-anywhere flexibility it demands.

We offer a rewarding and inspiring work environment that fosters creativity, collaboration, and camaraderie. Our culture of excellence and transparency encourages our colleagues to bring their authentic selves and unique perspectives and ideas every day. We know that our people are the driving force behind our success. We believe in investing in our colleagues by offering work-life balance, competitive salaries and benefits, ongoing learning/continuing education, and skill development. Join us and be a part of a team that inspires creativity, innovation, and passion in support of customers around the world.

Job Description

Xona is currently seeking a highly skilled and experienced DevOps Engineer to join our team. The ideal candidate will have a strong background in building, automating, and optimizing our infrastructure for scalability, security, and reliability. They will work collaboratively with other developers and QA engineers to ensure the highest standards of production. They will also discuss issues and opportunities with colleagues and management.

Responsibilities

- Design, implement, and maintain CI/CD pipelines to enable efficient software development, testing, and deployment.
- Automate infrastructure provisioning, configuration, and monitoring using Infrastructure-as-Code (IaC) tools.
- Collaborate with development and operations teams to improve system reliability, performance, and security.
- Monitor system health and troubleshoot issues to ensure continuous availability and high performance.

- Manage cloud-based environments (AWS, Azure, or GCP) and optimize cost, scalability, and security.
- Support and enhance containerization and orchestration technologies (Docker, Kubernetes, etc.).
- Stay current with emerging trends, technologies, and best practices in software development operations.
- Participate in daily engineering scrum meetings and other agile ceremonies.
- Support end-of-sprint demos, user acceptance testing, and deployment activities.

Qualifications

- Bachelor's degree in computer science, Engineering, Information Systems, or equivalent practical experience.
- Proven experience as a DevOps Engineer, Site Reliability Engineer (SRE), or similar role.
- Strong expertise in CI/CD tools such as Jenkins, GitLab CI/CD, or CircleCI.
- Proficiency in cloud platforms such as AWS, Azure, or Google Cloud. (Certifications are preferred)
- Hands-on experience with Infrastructure-as-Code tools like Terraform, Ansible, or CloudFormation.
- Proficiency in scripting and automation using Python, Bash, or similar languages.
- Familiarity with networking concepts, security best practices, and system administration.
- Strong problem-solving skills and attention to detail.
- Strong communication and collaboration skills.
- Ability to work independently and as part of a team in a fast-paced, collaborative environment.
- Experience with Linux systems.

Benefits of working at XONA

- Remote-friendly culture
- Competitive compensation and equity options
- Comprehensive health benefits (medical, dental, vision)

- Vacation and flexible working arrangements
- 401k plan with 3% match
- Fun, positive, ethical, and likeminded people working toward a single goal

About XONA Systems

Our mission is to provide secure access to critical assets and networks without compromising security. IT, OT, and Cyber Security teams work together seamlessly, efficiently, and effectively using the XONA Platform to secure critical infrastructure access.

Our platform provides secure remote and mobile operations within a Zero-Trust architecture. If you are passionate about technology and thrive in a fast-paced, innovative environment, we want to hear from you. Please send your resume to careers@xonasystems.com.
